PANELS

// WHY YOU SHOULD BE THERE

[01]

### Real investors in the room

Active VCs and angels with CEE focus. Pre-scheduled 1-on-1 matchmaking before you walk in.

[02]

### International speaker lineup

Thomas Ohr (EU-Startups), Kim Balle (Global Startup Awards, 154 countries), Jan van Schuppen (Bookboon Learning).

[03]

### AI, deep tech, next-gen founders

Three panels on what's actually happening, not what was in the headlines six months ago.

[04]

### Connections that matter

Founders from 11 countries, CESA alumni network. Cross-border collaborations start with a handshake.

Come hungry, fingerfood and drinks are on us. The programme wraps at 19:00, but the best conversations never follow a schedule. Whether you're building your first product, looking for co-founders, or figuring out what's next, this is your room.
